ABOUT

Experienced in building web applications from scratch to deployment, including architecture design, development, and maintenance. Skilled in React, Next.js, TypeScript, Node.js, Express, NestJS, Prisma, PostgreSQL, and related technologies. Worked on diverse projects — from MVPs to complex enterprise solutions — with a focus on scalability, performance optimization, and clean code.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Sep 2022 – Now

(Upwork, Fiverr, Freelancer)

- Over 3 years of experience delivering corporate web and e-commerce solutions for international clients.
- Skilled in React, Next.js, Angular, TypeScript, Node.js, Express, PostgreSQL, GraphQL, and Prisma.
- Managed full development lifecycle from architecture to deployment.
- Implemented API integrations, optimized performance, and applied responsive design with Material UI and Bootstrap.

Jun / Mid Full-Stack Developer | Apr 2023 – Now

Appexoft Company

- Developed and maintained a SaaS platform for startup business process automation using React, Node, TypeScript, and PostgreSQL.
 - Collaborated with designers and product managers, performed code reviews, and mentored junior developers.
 - Worked with UX/UI using Material UI, ShadCN, and Bootstrap.
 - Worked with CI/CD practices to speed up releases and reduce production bugs
-
